

World Congress on Autism Research & Innovation

Scitechseries cordially invites you to join us at the [“World Congress on Autism Research & Innovation”](#) (Autism Congress 2026), scheduled to take place in Paris, France, from **October 15-16, 2026**, in a Hybrid format.

This hybrid event allows you to participate in-person in **Paris, France**, or **virtually** from your home or workplace, offering global accessibility for researchers, clinicians, and advocates alike.

The primary focus of [Autism Congress 2026](#) will be on the theme **“Bridging Science and Society: Innovative Pathways in Autism Research.”**

[Autism Congress 2026](#) serves as a premier international platform that unites leading scientists, researchers, healthcare professionals, educators, policymakers, and innovators to exchange the latest insights and advancements in the field of autism. This timely event will spotlight cutting-edge discoveries in early diagnosis, intervention strategies, neurodevelopmental research, assistive technologies, and inclusive education practices.

The conference will feature distinguished keynote speakers, interactive panel discussions, oral and poster presentations, and a diverse exhibition of scientific and clinical innovations. It is designed to foster collaboration, promote evidence-based practices, and highlight global initiatives driving progress in autism understanding and support.

Join us at **Autism Congress 2026** to explore how scientific research and technological innovation can transform the landscape of autism care, advocacy, and inclusion worldwide.

When	October 15 - October 16, 2026
Location	Zone Hôtelière 2 Allée Du Verger Roissy En France, 95700 Paris France
Venue	Millennium Hotel Paris Charles De Gaulle
